

The ALS Network's Research Program works in collaboration with outstanding partners to provide innovation grants that drive the field forward.

The Community Research Committee (CRC) was established to provide ALS community member guidance, recommendations, and feedback to the ALS Network in its mission to advance ALS research.

The CRC contributes to the development and execution of a robust research agenda, ensuring excellence, innovation, and relevance in the pursuit of unique projects designed to solve critical problems in ALS.

Community Research Committee Chair

David Buseck

Committee Members

Liz Chaney
